

SATYAM

Full-Stack Web Developer

Gurugram, Haryana | info.satyam.dev@gmail.com | +91 7209064262 | GitHub: <https://github.com/info-satyamdev>

LinkedIn: <https://www.linkedin.com/in/satyam-sam/> | Portfolio: <https://info-satyamdev.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience shipping 250+ responsive landing pages and 10+ production domain deployments in an Agile environment. Strong in RESTful API integration, database design (MySQL/**PostgreSQL**), and Core Web Vitals optimization. Comfortable across the stack with React.js and Node.js, with a working foundation in DSA and a track record of using AI-assisted tooling to ship faster.

TECHNICAL SKILLS

- Frameworks & Libraries: React.js, Bootstrap, Context API, Tailwind CSS, React Testing Library
- Languages: JavaScript (ES6+), Java, TypeScript, SQL, PHP, HTML5, CSS3, JSON
- Backend & Databases: MySQL, PostgreSQL, Node.js, Express.js, JWT Authentication, Authentication, Authorization, Middleware, MVC Architecture, CRUD Operations
- Tools, API & Version Control: Git, GitHub, Git Flow, AI Orchestration, VS Code, IntelliJ IDEA
- Core Competencies: Data Structures & Algorithms (DSA), OOP, DBMS, UI/UX Design, Responsive Web Design, CI/CD, Scrum, Debugging, Unit Testing, Responsive UI, Component-based Architecture
- Operating Systems, API, DevOps & Deployments: Linux, Postman, API Integration, REST APIs, Vercel, Netlify, Context API

PROFESSIONAL EXPERIENCE

Web Developer Intern - KollegeApply | [\[Certificate\]](#)

October 2025 – April 2026

- Engineered and deployed 250+ responsive landing pages, improving cross-browser compatibility, reducing layout bugs, and boosting page load speed by 30%, lowering bounce rates by 15% through code-splitting and UI/UX refinements.
- Led setup and launch of 10+ enterprise domains, managing DNS configuration and deployment workflows end-to-end.
- Built 200+ automated REST API integrations connecting client databases with internal systems, enabling real-time synchronization and eliminating manual data entry.
- Accelerated development by 60% using AI-assisted tools (GitHub Copilot, Cursor, Claude, Kimi 2.6) for rapid, high-quality code delivery.
- Designed and developed the Enterprise Lead Routing Engine and LMS, building scalable full-stack applications with HTML, CSS, JavaScript, Node.js, Express.js, PHP, MySQL, PostgreSQL, REST APIs to automate lead acquisition, routing, and client management.
- Engineered secure backend services with JWT Authentication, Authorization, Middleware, MVC Architecture, CRUD operations, and Salesforce CRM integrations, enabling automated high-volume lead processing and synchronization.
- Delivered production-ready applications in an Agile Scrum environment using Git, Git Flow, Postman, CI/CD, debugging, and code reviews, while improving application performance and deployment workflows.

PROJECTS

Enterprise Lead Routing Engine | Node.js, Express, REST APIs, Salesforce CRM | [Internal Tool - KollegeApply]

November 2025

- Built a full-stack middleware system to capture, validate, sanitize, and securely route high-volume web application data to Salesforce CRM by mapping JSON payloads to Salesforce Lead objects, eliminating manual data entry.
- Implemented an Express.js backend as a secure bridge between landing pages and CRM using OAuth 2.0 token-based authentication.

LMS — Leads Management System | HTML5, CSS3, JavaScript, PHP, MySQL, Node.js, REST API | [Proprietary Architecture] December 2025

- Built an end-to-end lead management system covering lead acquisition, real-time delivery, and analytics.
- Engineered live landing-page integration with dynamic batch/real-time switching and a bidirectional feedback loop for lead tracking.
- Implemented Role-Based Access Control (RBAC) and data masking, plus an analytics dashboard with lead segmentation by medium, city, and state.

CMS — Client Management System | PHP, JavaScript, MySQL, Custom UI | [\[GitHub Link\]](#)

May 2025

- Built a centralized sales-asset repository with a secure access hierarchy and AI-driven search, cutting version-control issues and lead response times.
- Built a generation engine enabling reps to customize pitch decks and auto-deploy microsites for new clients.

EDUCATION

B.Tech in Computer Science & Engineering

July 2023 – June 2027

Veer Madho Singh Bhandari Uttarakhand Technical University, Dehradun, India

CERTIFICATIONS

- UI/UX Designing Workshop — Ensino

December 2024
